Sidekicks + Keepers

A variety of sidekicks assist visitors on their quests as they gather information to verify and preserve Earth's history and defeat the traitor. Each Sidekick brings a special set of abilities, passions, and knowledge to the experience. The sidekick chosen will tailor visitor experiences based on the traits and characteristics of that specific sidekick, providing a unique experience each time, no matter how many times an adventure is played.

Atticus is the elder keeper, and holds a strong conviction to the keeping of history across all time and space. He comes from the ruinous and sandy village of Istoria, where they have deep roots in the traditions of Galexium that have been passed down for ages. He is a bold leader and a faithful trainer to the next generation of keepers.

Those from his village hold close relationships to those they love and an even tighter collective bond to defending Galexium from any threats. Barrin is well respected by his peers, while always remaining humble and treating those around him with honor.
